

HAVE YOUR SAY

Our local urgent care services

Barking and Dagenham, Havering, and Redbridge Clinical Commissioning Groups are consulting on urgent care services. Local people want easier and quicker access to urgent care services. This feedback has informed the proposals that are being consulted on. The Clinical Commissioning Group are asking local people their views on two options.

Option 1	Option 2
Urgent appointments (walk-in or bookable)	
King George Hospital, Queen's Hospital, Harold Wood Polyclinic, Barking Community Hospital	King George Hospital, Queen's Hospital
Bookable appointments	
Available at eight community urgent care service locations	Available at ten community urgent care service locations
No walk-in service	
Loxford Polyclinic, South Hornchurch Health Centre	Harold Wood Polyclinic, Barking Community Hospital, Loxford Polyclinic, South Hornchurch Health Centre

The consultation is not proposing any changes to emergency care services or changes to the A&E services at any of our local hospitals.

Healthwatch Barking and Dagenham are holding a focus group to listen to the views of residents on the proposals.

Join us to find out more about the consultation and share your views!

We want to know: What option you prefer and why • What kind of challenges these proposals could bring • What you think the benefits of these changes are • Your experiences of urgent care!

Tuesday 7th August, 6pm – 7pm

Barking Learning Centre

2 Town Square, Barking IG11 7NB
