

Research Assistant Volunteer Role Description

Interested in conducting research focusing on health and social care services in Barking and Dagenham?

Are you passionate about raising the awareness about health and care issues in the local community?

Research Assistant volunteers will be involved in research that make real impact to the community. This will provide valuable insights to the NHS leaders and services providers thus improve the local health and care services!

The volunteer role consists of:

- Conduct literature reviews to gather relevant research studies, articles and reports
- Assisted in gathering and organising data from various sources
- Assisted in research analysis by using appropriate statistical and analytical tools
- Assisted in preparing and writing research reports
- Collaborate with the research team and provide administrative support

Skills and Experience required:

- Strong interest in healthcare, public health or related fields
- Good understanding of research skills including data collection and analysis
- Be able to follow guidance and instructions
- Be able to work in a team
- Reliable and good time keeping
- Good written and communication skills
- Maintain compliance with ethical guidelines and protocols during data collection, analysis, and reporting

How much time and when?

The days and amount of time you give is flexible, you can discuss and agree these with the Healthwatch Volunteer Officer.

An introduction to Healthwatch will be given and reasonable out of pocket expenses paid.

If you are interested, please contact Ruby Yip (Graduate Engagement and Project Assistant) for a volunteer application form.

Name: Ruby Yip
